Subject: Speaking Engagement

Governor -

I just spoke with RNC. They just confirmed up last evening the day slots for the speakers. As you noted in the Fox News article - You have been put on Tuesday, September 2, 2008. You have an approximate time of 9:00/9:30 p.m. Eastern Time. RNC feels that this is a much better slot for you and they want you on Primetime. They need you to be available 2 hours ahead of speaking engagement which would be 7:00 p.m. At that time you will have make-up done, go through final, etc. RNC will let us know when your rehearsal will be. It will either be Monday evening after you arriv

Congratulations, Governor Palin, on the birth of your son. I have a 15 year old daughter, Montana, who also has Downs Syndrome. What a blessing she has been and you must be a special kind of person to be so blessed. Good luck and keep up the good work! Thank you for having the courage to keep your "special" son even after knowing his disability before his birth. These days it seems convenient to abort a baby that society sees as imperfect but what a gift you would have missed. Also, I think you would make a great vice president.

Governor,

It was only Kami Clark who went into the master bedroom and Todd's office and she was only at each of the desks to have access to the computers.

To transport them, one other person helped her, but she was the only IT staff to have access to the 2nd floor.

MESSAGE:

Governor Palin,

I sent you a message a few months back requesting you support Alaskans who participated in the ACPE student loan program. In my first message to you I listed some compound difficulties I have personally expereinced with the Alaska Advantage program. I also made some recommendations for supporting Alaskans who are using their education to promote the needs of our state. I wanted to follow up my first message because I do not believe my voice was heard/understood by your office.

My message was passed on to Diane Barrans. While I understand Diane is the highest authority at ACPE I do not believe it is her issue to deal with. I have testified at ACPE meetings. I have communicated with members of the commission. I have communicated directly with Diane. While There are of course some things Diane may be able to address, I do not believe Diane should develop the type of program I proposed to your office. Diane is doing an excellent job promoting the needs of Alaskans and securing future funding for education in the state. I do not believe it would be proper for Diane to request educational support from the legislature. However I do believe a request from your office could spark interest in the legislature. There are thousands of Alaskans living and working in our state today who are dedicated to living and working here. The are countless others who have educated themselves and left Alaska. By offering a loan (or interest) forgiveness program to Alaskans who w

ork and live in Alaska you will INCREASE the educated workforce and PROMOTE new economy in our state.

As I mentioned before if people were not anchored by debt they may be more willing to take chances by opening small business, they would be less likely to leave state for more competitive markets/salary, and would be more likely to invest themselves in the future of our state. EVERY penny saved would be directed back to our economy in consumer spending, capitol investment, and/or charity. Providing Alaskans relief for educational debt incurred through our state process can only help grow our state.

I would like to reiterate that I do not believe this is a job for Diane Barrans. Diane and the commission have worked hard to ensure funding is available to Alaskans this is work enough for them.

I was however very disappointed by the letter Diane sent me in respone to my message to your office. The letter essentially told me about the benifits I am already greatful for, expressed details about my account, and left me feeling like I was nicely being told to shut up and pay my bill. I understand my educational bills are my own doing. I also undrestand that the ACPE works hard to help Alaskans. Because the letter I recieved was so pointed I would like to express a few pointed concerns I have with the current program.

I am currently making a reduced payment of $350 per month. That payment only covers the interest on my 40k plus loan bill because my interest rate is extremely high. ACPE boasts the lowest interest rate available however that is a misleading advertisement. People TODAY may have that low interest rate however there are numerouos Alaskans stuck with massive interest rates because the rates offered have changed in time. I take advantage of auto payments to reduce my interest rate (I am greatful for that option). I have been trying to get on the consolidation program. I am unable to get in that program because my credit score is too low. One major factor of my low credit score is the number of loans I have. If my loans were consolidated my credit score would be much higher. Because the number of unconsolidated loans is lowering my score I am unable to lower my interest rate unless I make 18 on-time payments. I am working on this. I believe people should be offered consolidation earlier.

Consolidation could be provisional for a temporary time, or offered for portions of a loan. This would be some relief as people would be paying the actual principal of the loan.

ACPE should offer some form of support for unforseen difficulty. Forebearance is difficult, lengthy, and often unnecessary. I am currently switching jobs and will be unemployed for a month. When I called ACPE to discuss this I was told my only options were to get a forebearance for 6 months and that I was ineligible to do that if I could not prove income. I would only be eligibel if I defaulted my loans!!!! When I called my federal consolidation loan processor they assisted me by adjusting my payment schedule and offering me a month grace period. It was a simple and easy process that allowed me to continue paying on-time. The ACPE processes are more difficult. I am given the option to take months off, keep paying, or default my loan. I do not understand why it is so difficult to support the consumer in difficult times with a simple month grace period, by

altering the payment schedule.

I would like to close this letter by urging you to consider supporting the growth and development of our educated workforce by creating a loan forgiveness program for Alaska. Here qare a few suggestions: The program could allow Alaskans who are PFD eligible to pay the entire principal and be forgiven the compound interest. The program could forgive the entire loan. The program could allow Alaskans to offer their PFD in exchange for loan forgiveness. People who participate could be required to provide service to Alaska for a set time after participating to ensure they remain in Alaska and support the state. There are many ways to develop such a program. I would be happy to assist your office (or any legislators interested) shoudl you wish to consult me. Please condiser this. Why not invest our state surplus in our greatest resource, OUR FUTURE! OUR PEOPLE!!!

Thank you for your time

With great respect

John Gregoire

Governor,

With all due respect- I believe there's some confusion as to who had access to your computers and the House. It was not the investigator, but our guys in the Dept. Of Law who requested the information to preserve it in advance-- before the investigators have access to it.

Had it been the investigators, I certainly wouldn't let them just walk in unaccompanied- eapecially not your bedroom. Kami is the IT gal who works on your computers on a regular basis.

Although it's still intrusive, it's better that they came in and not one of the investigators and that Dept. Of Law has secured the hard drive copies.

I had understood, although incorrectly, that you were aware that this was taking place. I apologize for not keeping you informed, I'll make sure that I communicate with you directly.

I wanted you to be aware that it was Diane and I, not IT staff that moved everything off of your desk. This was before we knew that you were returning to the House to pack and we had already begun to prep for the plumbing project..

I can certainly understand your frustration with this and will be more diligent at keeping you informed.

Thank you,
Erika

They had coordinated with Susan from the house as Erika was not available at the time. They unhooked the bedroom computer and took it to copy the hard drive. It was then returned back to the house. All of staff computers that were needed were copied over the weekend. I was told that the department of law had asked for this.

Governor,

With all due respect- I believe there's some confusion as to who had access to your computers and the House. It was not the investigator, but our guys in the Dept. Of Law who requested the information to preserve it in advance-- before the investigators have access to it.

Had it been the investigators, I certainly wouldn't let them just walk in unaccompanied- eapecially not your bedroom. Kami is the IT gal who works on your computers on a regular basis.

Although it's still intrusive, it's better that they came in and not one of the investigators and that Dept. Of Law has secured the hard drive copies.

Subject: Lay Offs?

Bill- pls find out if Megan Peters was absent from work yesterday, hence KTUU's inability to get any answers from DPS regarding their claims that troopers may be laid off.

Mike- pls ask Mr. Glass why KTUU had to report that they didn't get answers, and also ask what this story was about anyway. What troopers may get laid off? Who does he believe directed or approved this? And what happens today - as it was reported "troopers will learn their fate tomorrow"?

Kelly- pls ask their leg liasion if there's some misunderstanding that the DPS budget was cut by lawmakers, thus necessitating lay offs (as PSEA has been claiming in their media interviews)... and remind the liasion that we increased their budget and no one from admin has directed lay offs and we're unaware of any need to pink slip troopers - in fact quite the opposite we're anxious to learn of their actions towards an aggressive recruiting plan so they can add more necessary troopers. (Karen and Annette have more details if they're unclear on what the legislature did in actually approving INCREASED line items for DPS.)

Obviously nothing makes sense in the recent media reports regarding claims that troopers will learn their fate today re: threatened pink slips, but it will be helpful to learn why DPS didn't have responses to KTUU last night, why PSEA would ever claim that lay

offs may be pending (and how the tragic Bonnie Craig murder case would be relevant to this, as KTUU suggested), and what is special about August 20 as that's the date troopers will reportedly learn their fate?

Very unfair to the public to have all these unanswered questions so it's imperative the answers are quickly assimilated and aggressively presented to Alaskans today - so those whom we serve may have the confidence in their public safety organization that they deserve, and so citizens aren't left confused as to what we just accomplished with the legislature in terms of budget increases and contract negotiations. A press conf with Annette's participation (and DPS leadership) is warranted on this - that may be the only way to get the truth out there. Short of that, a press release clarifying and correcting all the recent erroneous reports must go out today so I'd like Bill, Randy and Annette to do that as they get DPS leadership's clarifications on the record also. Truly, this is all horribly unfair to the public for them to be deceived concerning our intentions and actions with trooper positions. Thanks

And what were the reasons given and responses given to whomever must have officially entered the residence on whatever day it was that this occurred. Thank you

The Coast Guard is suspending search efforts. They will follow up on new information, as it comes in, and they are encouraging all pilots in the area to remain vigilent in looking for evidence of a crash site. The search has been extensive, and thorough. All survival scenarios have been explored, and realistically ruled out. Most likely, they went down on a forested hillside, invisible from the air, and extremely remote from the ground.

We remain hopeful that they will be found someday to bring closure for their family and friends.

For us at DOR, we remember Brian as a good friend, an exceptional collegue, and just fun to be around. He will be greatly missed.

Our thoughts and prayers go out to his family.

Jerry Burnett will be serving as acting Deputy Commissioner.

Subject: Lay Offs?

Bill- pls find out if Megan Peters was absent from work yesterday, hence KTUU's inability to get any answers from DPS regarding their claims that troopers may be laid off.

Mike- pls ask Mr. Glass why KTUU had to report that they didn't get answers, and also ask what this story was about anyway. What troopers may get laid off? Who does he believe directed or approved this? And what happens today - as it was reported "troopers will learn their fate tomorrow"?

Kelly- pls ask their leg liasion if there's some misunderstanding that the DPS budget was cut by lawmakers, thus necessitating lay offs (as PSEA has been claiming in their media interviews)... and remind the liasion that we increased their budget and no one from admin has directed lay offs and we're unaware of any need to pink slip troopers - in fact quite the opposite we're anxious to learn of their actions towards an aggressive recruiting plan so they can add more necessary troopers. (Karen and Annette have more details if they're unclear on what the legislature did in actually approving INCREASED line items for DPS.)

Obviously nothing makes sense in the recent media reports regarding claims that troopers will learn their fate today re: threatened pink slips, but it will be helpful to learn why DPS didn't have responses to KTUU last night, why PSEA would ever claim that lay offs may be pending (and how the tragic Bonnie Craig murder case would be relevant to this, as KTUU suggested), and what is special about August 20 as that's the date troopers will reportedly learn their fate?

Very unfair to the public to have all these unanswered questions so it's imperative the answers are quickly assimilated and aggressively presented to Alaskans today - so those whom we serve may have the confidence in their public safety organization that they deserve, and so citizens aren't left confused as to what we just accomplished with the legislature in terms of budget increases and contract negotiations. A press conf with Annette's participation (and DPS leadership) is warranted on this - that may be the only way to get the truth out there. Short of that, a press release clarifying and correcting all the recent erroneous reports must go out today so I'd like Bill, Randy and Annette to do that as they get DPS leadership's clarifications on the record also. Truly, this is all horribly unfair to the public for them to be deceived concerning our intentions and actions with trooper positions. Thanks

Steve:

I'm not copying Jill on this because I want you to have control of this e-mail.

Tonight's story at 5 was horrifying. To bring up a sensational murder and rape, to throw in Monegan, and then to talk about phantom budget cuts with no attribution was simply appalling to the governor, as well as to me.

I e-mailed Jill twice on this point beforehand, but apparently it needs to be said over and over: The governor's office has done nothing. Nothing, nada, no way. There is no story here, at least as concerns us.

The personnel office within the Department of Administration sent out a message to every state department concerning non-permanent positions. My understanding is this is pretty much standard operating procedure, but in any case there was no effort to target a department, let alone a division within a department. This concerns all of state government, and is handled by Admin, not by the governor's office. By raising Monegan's firing in the intro, the obvious implication is that the governor has something to do with pending cuts in the cold case unit or elsewhere. (And what was meant by saying the troopers would learn their fate tomorrow? Says who?)

I pleaded with Jill to get her answers from the Department of Public Safety - it's their budget, after all - but all we saw was the union guy on the screen. If the acting commissioner and/or others are not commenting, then please say so. Don't leave the impression that the governor's office is stonewalling. This has nothing to do with us.

And it sure would be nice to know where all of this is coming from. Jill cited no sources for these alleged budget cuts.

I would like a response, please.

Governor: You should have received a ruling by APOC regarding our predator control informational efforts. The complaint came from Alaska Wildlife Alliance, claiming that we and the Board of Game were inappropritely trying to influence the outcome of the election on Ballot Measure 2. The Dept. of Law ably defended us, and APOC ruled that there was no preponderance of evidence of us violating those campaign and expenditure rules.

Of course, this is at odds with the ADN editorial today. Wonder if we'll get any favorable press coverage on this positive ruling for us from APOC in this controversy.

MESSAGE:

Dear Governor Palin,

I was inquiring to the First Gentleman's Biography page if he would be interested in listing the University of Alaska Southeast, School of Career Education's website: http://www.uas.alaska.edu/career_ed/index.html

He visited our facility this spring and would love to increase our visibility to education and apprenticeships in Southeast.

Please contact me anytime if you have any questions or would like additional information about our programs.

Sincerely,

Amber King

Administrative Assistant

School of Career Education

Subject: Processing requirements

I wanted to let you know that I have been doing some additional research and discovered that under federal law any foreign vessel that is granted an internal waters processing permit must have an international fisheries agreement in place. At this point Russia is the only country that would be eligible for a permit. Allowing a foreign processor from any other country would require either a change in federal law or negotiation of a new international treaty.
This may limit our options somewhat, although I do have a contact that has proposed bringing in Russian vessels.

Subject: Privileged-Safety Council

Governor,

Click has recommended the appointment of Privileged to fill an industry vacancy on the Safety Council. The Council is currently planning the 2009 Governor's Annual Safety Conference and are in need of good members. Click says Privileged or Personal Material Redacted Privileged or Personal Material Redacted I've also discussed this appointment with Frank and Dan.

Here's a quick bio for you:

Privileged or Personal Material Redacted

With your permission, we'll move forward with this appointment.

Thanks so much!

Subject: communication

S~

I am bothered by what I perceive as an unnecessary paranoid reaction by some people on staff to the recent attacks on you.

First of all, if one is accused of communicating inappropriately and therefore changes their behavior, they are saying to the accuser "You are right. I was wrong. I will change how I communicate." Abandoning email practice for example. This is a whole new world that election folks and legal folks haven't even begun to analyze. It will change our world. In fact, I believe the effects of email were very apparent in your campaign.

I, for one, refuse to let anyone take away my freedom of speech, my right to communicate to anyone, or my right to privacy. We need to stand tall, shoulders back, look critics dead in the eye, and say "I haven't done a thing I need to apologize for."

I'm right there with you. Don't know if you will get this message, but I hope so.
